Virtual Machine Backup
Top 10 Reasons to Choose Veeam

Veeam has won more VMworld awards than any other vendor, and Veeam is the only two-time winner of the VMworld award for New Technology

Veeam Backup & Replication v6.5 won Best of TechEd 2013 for Backup and Recovery.

"A major reason that organizations still hit these bumps on the backup and recovery road: They use the same products for both physical and virtual server backup, when **we all know that virtualization requires a fundamentally different approach.**"

Veeam® Backup & Replication™ isn't the only way to back up your virtual environment… but it is the best way.

While many physical backup tools can now perform image-based backups of virtual machines (VMs), only Veeam fully leverages the virtual environment to reduce the cost and increase the value of backup—not just a little, but a lot.

Built for Virtualization

That's why so many organizations have said, "Enough!" to the shortcomings of "single solution" backup, and moved to best-of-breed backup with Veeam.
Whether you have thousands of VMs or just a handful, Veeam's purpose-built backup is the best choice for your VMware, Hyper-V or mixed hypervisor environment.

Powerful, Easy-to-Use and Affordable

Veeam provides fundamental and far-reaching advantages over physical backup tools. Here are the top 10 advantages according to Veeam customers and partners:

		Veeam Backup & Replication	*Physical Backup Tools*
1	Agentless	✓	✗
2	Support for VMware and Hyper-V	Deep, including true incremental backup with Change Block Tracking	Basic
3	Instant VM recovery	✓	✗
4	Instant file-level recovery	Any OS and file system	Windows, maybe Linux
5	Instant application-item recovery	Any application and OS	Select applications only
6	Automated recovery verification	✓	✗
7	Built-in, source-side compression & deduplication	✓	✗
8	Simple offsite backups	✓	✗
9	Storage agnostic	✓	✗
10	Easy to deploy and configure	15 minutes to self-setup	Weeks of expensive deployment
